SUMMARY

Computer Science graduate who builds full-stack web applications with React, Node.js, Express, and MongoDB. Built and deployed CampusRide, a ride-sharing app with JWT authentication and an AI chatbot. Looking for a fresher software developer role with backend or full-stack work.

TECHNICAL SKILLS

Language: JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, Middleware

Database: MongoDB, Mongoose

Security: JWT Authentication, bcrypt Password Hashing

Tools: Git, GitHub, Postman, VS Code, Render, Vercel, Groq API

PROJECTS

CampusRide – Full-Stack Ride-Sharing Platform GitHub | Live Demo

React.js | Node.js | Express.js | MongoDB | Mongoose | JWT | Tailwind CSS | Groq API

- Built a MERN-stack ride-sharing application with 8 React pages backed by a RESTful API for rides, bookings, and user accounts.
- Designed 12+ Express API routes handled by 16 controllers, covering authentication, ride management, bookings, and user operations.
- Implemented stateless JWT authentication with bcrypt password hashing, enforced through Express middleware, and added API rate limiting.
- Structured the backend with separated routes, controllers, 4 Mongoose models, 4 middleware modules, and a dedicated service layer.
- Integrated an LLM chatbot: an Express /api/chat endpoint sends conversation history and a feature-grounded system prompt to gpt-oss-120b via the Groq API, with the API key kept server-side.
- Built the React chat widget with optimistic message updates and rollback, rate-limit countdown handling, and offline detection.
- Deployed the frontend on Vercel and the backend on Render.

Expense Tracker – RESTful Backend API GitHub

Node.js | Express.js | MongoDB | Mongoose

- Built a REST API with full CRUD operations for expense records, using Express routing and MongoDB for persistence.
- Implemented request routing and database access with Mongoose for a structured backend service.

EDUCATION

Sandip University, Nashik Sept 2022 – July 2026

Bachelor of Technology in Computer Science | CGPA: 8.0 / 10
